

## WOODSWORTH'S CALGARY MEETING IN GRAND THEATRE WAS VERY SUCCESSFUL

Mr Woodworth, newly elected President of the C C F Movement, addressed last Thursday an audience which completely filled the Grand Theatre in Calgary, and scores were turned away. He prefaced his address proper by commenting on the recent by-election in Calgary in which he congratulated Miss Turner who though she had not won the seat in the Legislature had achieved a great victory for their cause.

Mr Woodworth stated the C C F had been accused of receiving money from Moscow and also that their policy was to be a constructive one which resorted to force to bring about the objects or conditions to be obtained, both of which statements he declared there is absolutely no truth in. He stated the aims of the C C F could be brought about by the intelligence and common sense of the people themselves. He stated very emphatically that there is a great gulf between the C C F and Communism, and he said if the intelligence of the people runs away with the movement it is hard to say what might happen. He then said he had the earnest desire is that peaceful means will conquer. I do not believe it is necessary to have a violent settlement of any problem, stated the speaker.

There are more than one million people in Canada living on charity. He said that it is a relief and that it is proof that there is something wrong with the present system. He spoke of the inadequacy of farm prices. To meet payments contracted in previous years, of the difficulty many have who are only too anxious to find work, of the disappointment, despair and demoralizing effect on the youth of our land who are growing up and as they leave school or University can secure no work to be self sustaining, and become a charge on the country to their own despair and very often utter demoralization.

Surly he said the system under which we have lived and which has brought us to this point, can be remedied, so that all can have a rightful share in the necessities of life.

Mr Woodworth stated that the idea had become general that the C C F was composed largely of B. Illegals, down and outs and rebels against the government generally which he most emphatically denied to be true. He said in Winnipeg the movement is supported by about 50 per cent of the population. In Toronto he had had numerous bankers, lawyers, and doctors coming to him to ask what is the remedy, or what has the C C F to offer, that they had tried the present system and cannot make it go.

In the main the address was which pictured a condition, which if it can be realized will make for a happier and fairer world for all irrespective of class, creed or color.

One could not help feeling that the lecturer brought you so far on the road and then left a state of uncertainty as to what may follow, wherein may lie the obstacles.

## Letter To The Editor

Editor, Strathmore Standard  
Dear Sir: In regard to meeting of the Nightingale School District as published in the Standard, Jan. 18th I should like to report a difference. During the discussion of the afternoon a resolution was made for a change of teachers as several parents with children in school are dissatisfied.

Complaints were smoothed over by ready wit and humor. Although we are in the minority I do not wish everyone to believe that there is even satisfaction with the present management.

Don Olfendick

### RED SOX 6 TROJANS 1 MONARCHS WIN FROM RED SOX 3-2 IN FLAT-OF GAME

The Medicine Hat Monarchs won the first game of the Inter-mountain Hockey League 3-2. Here are the scores.

Flaser scored twice in the first period for the first period. Gene Giroux collected a penalty for an accidental trip. Midway through the period Moran and Bill Giroux combined to score the first one. Three minutes after Mike collected the next on a solo effort with some luck when he shot from inside the blue net was missed by Laven. Marcin spent a minute in the cooler for the and Les Christensen followed him in for the same offense.

Cleve stopped some not ones in this period.

The second opened fast with end to end rushes by both sides with much in evidence and in the press Collicott collected a penalty for a trip. Just nine minutes from the forward Charlie Giroux alone went through and had the satisfaction of seeing his shot from inside the blue net go through the net for another goal. Bill Giroux followed Charlie's effort with a trip to the cooler and Moran and Marcin followed Bill. Fourteen minutes of the period being gone Bill Giroux slipped a beautiful pass to Charlie and Charlie put another notch in his stick. Three minutes after Charlie took Moran's pass to make the fifth goal for Strathmore. Calgary was pressing in this period, trying to break the duck egg but were not successful.

Determined to collect at least one before the evening's fun was over Calgary had four men up in the first part of the third period and Patton intercepting Gene Giroux's pass collected the only tally for the visitors. Time 12 minutes. Gene and Cooper both drew a trip to the cooler in the next two minutes. One minute from time up Moran and Bill Giroux showed off a nice piece of combination to make the sixth and last goal of the game. Moran hit the net. ## WOODSWORTH ALMOST GOT INTO SERIOUS TROUBLE

Calgary - James C Woodworth, of his new party, the Woodworth Laborite asked: Does anyone believe the great fortunes of this country have been built through honest toil? Has the whole of the prime minister's fortune been gained through honest toil? Retraction Asked.

In the midst of a detailed explanation of the aims and policies of his new party, the Woodworth Laborite asked: Does anyone believe the great fortunes of this country have been built through honest toil? Has the whole of the prime minister's fortune been gained through honest toil? Retraction Asked.

Withdraw! Withdraw! c/o the Conservatives while the act and the Labor leader's over the party. I would name the honorable member, propose that if he do continue to the rules and threaten the speaker.

Confronted with his possible explanation, Mr Woodworth withdrew any implication the prime minister made his noisy display, and the temper of the House subsided.

Supported by Miss Agnes Macphail, one of his chief lieutenants in the commonwealth Federation; George Coles, United Farmer member for Macleod, and A A Hoag, Liberal member for North, Mr Woodworth proposed a resolution to establish an economic system in which all natural resources and the economic necessary machinery of production will be used in the interests of the people and not for the benefit of the few. During the short speech Mr Woodworth made was Communistic. It was setting one class against another.

No Measure Carried.

The Cooperative Federation has no connection with Moscow, none whatever, despite the efforts of a class and social system Mr Woodworth, during any member who entertained contrary views to the prime minister. So far the prime minister with the whole secret service behind him had failed to prove any connection.

The Commonwealth Party advocated a class and social system through peaceful, orderly methods explained its leader.

With a little force, perhaps, against Communism.

It may be admitted Mr Woodworth, that force may grow inevitable if the attitude of certain socialist members and the people denied the right of self-expression and a decent livelihood.

MISS MACPAIL

APPEARED AT

TORONTO GLOBE

In the course of her address at Strathmore on Thursday evening Miss Agnes MacPail, M. P. made it fairly obvious that she has no great regard for The Globe. That would be the inference drawn from the following extract, admittedly inducted with unkindness:

Attacking The Globe for its attitude toward J. S. Woodsworth and the C. C. F. Miss MacPail declared: "The hypocrisy of 'The Globe' is the thing that appeals me— that Wednesday sermon, and other things. The people who knew The Globe when it was 'The Globe'— I can understand how they stand the thing today."

The Globe does not dislike Miss MacPail, but it finds difficulty in keeping track of her agile mind; hard to follow the pace she sets and to get her point of view, from what she says, on the many subjects disposed of in her vigorous fashion.

For example, why is there hypocrisy in criticizing Mr. Woodsworth and the C. C. F. Why should they be immune from newspaper attack? However, that does not greatly matter. But The Globe again Miss MacPail—the Wednesday sermon, and other things which makes it rather general stuff, the lady does a good deal of preaching herself, which is more vigorous than orthodox, and The Globe is not the least appalled.

This paper has more reason for being appalled by Miss MacPail's method of curing the depression, which she applies regularly. She sees sources of public revenue drying up, scarcity of money, huge deficits; and sums it all up by saying, truthfully: "If the money isn't there you can't get it. Which seems true enough. Then what? Print money?"

Nothing easier. There are the presses, many in need of a run, and no scarcity of paper and ink, with pressman and printers eager for work. There should be nothing more necessary than to get up steam, turn on the juice or turn the wheels by foot power. Anyway start the press. The output would equal even the war-time. By a little overtime there soon would be so much money that it might be carried away by the arm-pit.

It all seems so simple. Let the designers turn out handsome bills. Let them be crisp and crinkly so that there may be melody as they circulate. Money talks now. Make it sang—with Miss MacPail conducting.

DENIAL ISSUED BY C. N. R.  
OFFICIALS OF NEWSPAPERS  
REPORT ON LOSSES

Montreal, January 25.—Statement is made in a Montreal paper that the Canadian National has been losing at the rate of more than one million dollars a week on operation alone without any gain to interest charges. This statement is untrue. The Canadian National Railway System in 1932 met its operating expenses and had an operating net of upward of ten million dollars, on improvement of more than two and a half million dollars as compared with 1931.

Not a week passes that Merchants are not being canvassed by representatives of nationally-advertised products to stock and push them, and to give them good window and counter displays.

Their representatives tell you of the large sums of money being spent in metropolitan daily newspapers and in nationally-circulated magazines, to create and maintain consumer demand, and they try hard to persuade you that such "remorse" advertising will surely create and sustain large local demand.

It is admitted that it is advantageous to you and your customers for you to stock nationally advertised products, but such products will sell faster if they are locally advertised, in addition to being advertised in non local publications.

There is no good or sound reason why a national advertiser should not do local advertising. In this newspaper. You will be told, when you say to the representative of firms canvassing you to stock and push his firm's product, "Oh, we could never afford to do local advertising." What he really means, when he says such words, is that he doesn't expect large local sales. If he did, then he would see that these local sales can provide a sum of money adequately to maintain a local advertising campaign.

Why should you help a national advertiser to develop his business in the territory covered by the circulation of this newspaper without advertising cooperation from you?

You provide local distribution facilities for manufacturers of branded products, and your value to them is recognized. Why, then, should these manufacturers not let you to sell these goods, if stocked by you, by a series of local advertisements, perhaps carrying your name as local distributor, published in this newspaper?

The more frequently and vigorously you present your point of view to national advertisers, direct and through the representative who calls on you, the more surely will you persuade them to accept it.

## ERNEST SEITZ

VISITS CALGARY

The importance of Ernest Seitz  
recent short visit to Calgary en-  
route home from Vancouver to  
Toronto becomes only slightly ap-  
parent to many as it becomes a  
thing of the past.

After his former visit, some six  
years ago, a new rapprochement  
between the musical and educational  
forces of Canada east and west  
became evident; a vitality in rela-  
tionship formerly lacking.  
Up to that time, our western  
musical standards had been largely  
set by a group of English music-  
ians whose pioneer work had been  
somewhat staid. Like all pioneer  
activity, the earlier is bound to ap-  
pear to us in authority and  
merely its identity in the greater  
development that progress de-  
mands.

Canada is in reality no longer in  
leading strings to any other  
country; on the other hand Canada  
is so huge, vast as to be a bit  
unmanageable, and on a grand scale  
and to a certain extent parallel.  
For instance in the earlier settled  
part of Canada there is an im-  
mense national pride in an achieve-  
ment which is all Canada's own,  
the Toronto Conservatory of  
Music, an educational institution  
of its kind second to none in the  
world.

In point of actual student at-  
tendance it leads the world, by  
numbers, but far more important  
her degree in musicanship carry  
the highest prestige attainable.  
A student in Canada today feels  
proud or she must hold the degree of  
A.T.C.M. as conferred by the T.C.M.  
in complete affiliation with  
the Toronto University.  
Mr. Seitz whose own musical ed-  
ucation was carried on at the  
T.C.M. and afterwards abroad,  
combines, in a rare manner, the

## Here and There

Twenty-two days will be occu-  
pied by the government train across  
Canada to be completed by Dean  
Sussell, left, second-class  
passenger, who will leave his  
home in Strathmore, Alberta,  
by special train over Canadian Pa-  
cific line on Sunday, July 23.  
He will be the seventh try con-  
ducted by Dean Sussell and, as in  
past years, will include a number  
of side trips over the famous  
Vancouver Island and New  
Westminster railway and the  
Vancouver Valley, to Lake  
Louise, as well as a number  
of trips across the Rockies to  
Banff, from Vancouver to Victo-  
ria, and on the latter line  
passenger from Fort William to  
Fort McNellie.

Spring seeding in the west is  
proceeding a rapid pace ac-  
cording to report at the end of  
April from the agricultural de-  
partment of the Canadian Pacific  
Railway at Winnipeg. Taking the  
three prairie provinces as a whole  
it was then estimated that 48 per  
cent of wheat seeding was com-  
pleted, with some districts in south-  
western Alberta reporting between  
50 and 60 per cent finished. Heavy  
showers have somewhat retarded  
progress in north-western Saskat-  
chewan.

Twelve representatives of the  
New Zealand press are at present  
traveling through Canada via Cana-  
dian Pacific on their way to the  
fourth Imperial Press Conference  
to be held in London, Eng., next  
June. The members of the party  
with their wives and children have  
been visiting Banff and Lake  
Louise in the Canadian Rockies.

Contracts are let and grading  
has been started on three addi-  
tional branch lines of the Canadian  
Pacific Railway covering 145 miles  
in Saskatchewan and Alberta. It is  
announced by the company's en-  
gineering department. These new  
sections of railroad will provide  
facilities for passengers and  
freight into one of the richest agri-  
cultural areas now under settle-  
ment and will give encouragement  
to farmers already settled in the  
area affected.

With 1,265,200 pounds more fish  
landed in New Scotia during  
March 1932, as compared with the  
same month of the previous year.  
Fishermen of the province received  
a total of \$35,284 for their catch,  
according to the monthly report of  
the fisheries branch of the Depart-  
ment of Marine and Fisheries. Total  
quantity landed in March was  
9,478,000 pounds.

The new Montreal Harbor  
Bridge, a two-mile span across  
the St. Lawrence River, built at a  
cost of \$12,000,000, will be formally  
opened on Victoria Day by Rt.  
Hon. W. L. Mackenzie King, Prime  
Minister of Canada. This bridge,  
work on which was commenced  
five years ago, is one of the longest  
and largest in the world.

Marquis wheat still constitutes  
more than one-half of the western  
grain crop. This is shown by the  
test samples taken from 48 car-  
loads of Canadian wheat exported  
to England in 1932-23 and reported  
by the Dominion Department of  
Agriculture. The tests were made  
at the Dominion Experimental  
Farm at Brandon from samples  
collected by the Canadian Con-  
sumers' Wheat Producers at ex-  
port ports.

science of the diagnostician, with  
the temperamental abandon of the  
artist, on his playing, in a manner  
which it is almost impossible to  
describe. How can the "rush" of  
temporament be gauged, control-  
led? and yet it is so in Mr. Seitz  
own piano playing. His personal-  
ity immediately fits him for his role  
of breaking the needed link be-  
tween the printed demand of the  
syllabus and the actual personal  
and spiritual development, desired  
by the most optimistic of direct-  
ors. The position of the link in  
question is one of unselfishness  
and self control, the strain is im-  
mense. It is according to tradition,  
only possible to excel in one of  
two ways. Either as a performer  
or as a teacher and demonstrator,  
but the writer ventures to say that  
in Mr. Seitz we find a most out-  
standing evidence that a very  
wonderful compromise may be ef-  
fected in the achievement of one  
man. One wishes that this music-  
ian might come to Calgary and  
live among us in an advisory cap-  
acity for sometime. Last Friday at  
Mount Royal College, a large  
audience, largely consisting  
of teachers and pupils listen-  
ed breathlessly while the demon-  
strator conducted two piano exam-  
inations in what the writer knows  
by experience to be on the authen-  
tic lines of procedure with  
very interesting results.

On Saturday the Women's Musi-  
cal Club entertained at luncheon  
in Mr. Seitz' honor at the H. F. Co.  
Newman and Mrs. Norman  
Dingle, striking a happy note in  
their speeches.

After enjoying a delicious meal  
carried out in Miss Chamberlain's  
own style, about one hundred and  
twenty-five guests had the pleas-  
ure of hearing Mr. Seitz playing a  
group of romantic Morceaux of  
which the writer considered to be  
the most interesting. Mr. Seitz own  
Characteristic Value, and Sublime  
Cathedral by Debussy. A vote of  
thanks for Mr. Seitz' generosity  
was moved by past president, Mrs.  
C. P. Dingle and cheerfully ap-  
plauded.
